

CENTRO COMUNITÁRIO TIRES

NAME: Centro Comunitário de Tires (Tires Community Center)

LOCALIZATION: Cascais, São Domingos de Rana

AXES OF ACTION: Ageing, Childhood, Community

BRIEF DESCRIPTION OF THE ORGANIZATION:

The Tires Community Center is a Private Social Solidarity Institution that aims to be close to the community it serves, innovative, proactive, dynamic and essentially designed for the social development of the populations in its geographical sphere of operation. It strives to be an institution of excellence in its field of activity. It aims to promote the integral development of the person in their inherent dignity, according to the principles of the Gospel and the Social Doctrine of the Church, contributing to the construction of an inclusive society.

We have been carrying out social work in the parish of S. Domingos de Rana, in the municipality of Cascais, for 42 years. Over the years, our main focus has been on the elderly and the problems inherent in the ageing process. Since 2012, we have also worked in the area of early childhood. We have developed the Social Responses of a Day Center, a Home Support Service, a Social Center and a Day Care Center.

However, as a Community Center, the institution has always been guided by a broader intervention, seeking to act and become present in other dimensions of life and in people's needs. Of particular note are the numerous partnerships and projects established and carried out with other institutions and the local authority itself. In fact, the word community, present in the name of this institution, has its full meaning in the intervention that is designed and implemented.
